

Preserve Capital, Fight Taxes

Intermediate-Term Tax-Free Bond fund seeks safety of principal and high current income free of federal taxes through actively managed positions in investment-grade, intermediate-term municipal bonds.

The bond market's sweet spot

Intermediate-Term Tax-Free Bond invests in the market's sweet spot, intermediate-term bonds. Historically these securities with two- to 10-year maturities have delivered competitive returns with less risk than long-term bonds.

(Based on a comparison of the Bloomberg Municipal Bond 7 Year Index and Bloomberg Municipal Bond: Long Bond Index.)

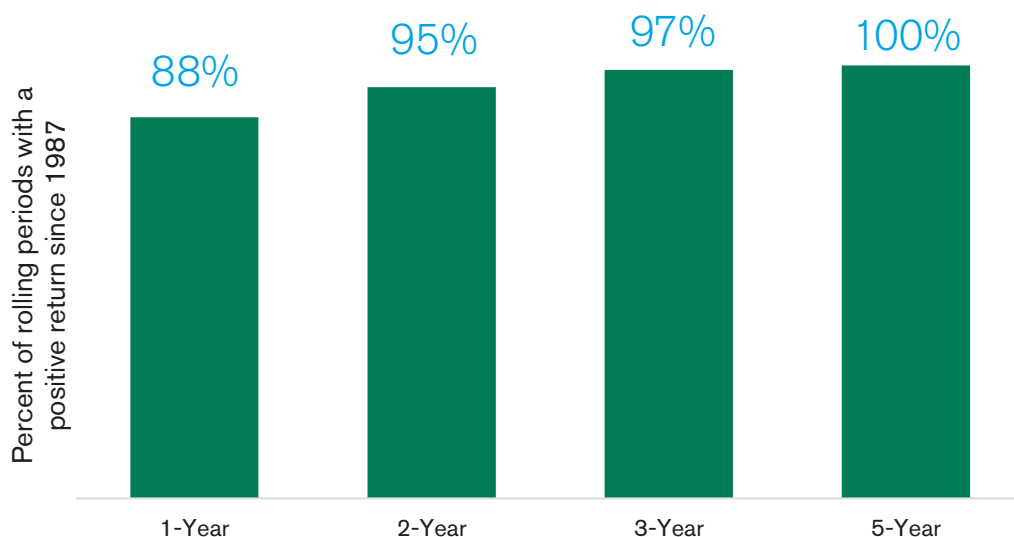

Proven stability

Intermediate-Term Tax-Free Bond's performance history illustrates its appeal as a foundational core holding in a diversified portfolio. Investors who held the fund for two years were rewarded with a positive return nearly 100% of the time since the fund's inception in 1987.

AMT free

The management team actively seeks to avoid exposure to the Alternative Minimum Tax (AMT). Since 2002 the fund's monthly dividends have been truly federal tax free with no exposure to the AMT.

You should consider the fund's investment objectives, risks, and charges and expenses carefully before you invest. The fund's prospectus or summary prospectus, which can be obtained at americancentury.com, contains this and other information about the fund, and should be read carefully before investing.

Interest rate changes are among the most significant factors affecting bond return. When rates decline, bond prices rise and the fund may generate less income. When rates rise, bond prices fall. Depending on your tax situation, investment income may be subject to state and local taxes and the federal alternative minimum tax.

Fund shares are not guaranteed by the U.S. Government.

Bloomberg 7 Year Municipal Bond Index is a 7 year component of the Municipal Bond Index, which is a rules-based, market-value-weighted index engineered for the long-term tax-exempt bond market. Bloomberg Municipal Bond Index is a rules-based, market-value-weighted index engineered for the long-term tax-exempt bond market. The Long Bond (22+) index is a component of the Municipal Bond index.

The Average of Morningstar Intermediate-Term Bond category is an average of all the funds in this category. It is not an investment product available for purchase.

Modified duration is the approximate percentage change in a bond's price assuming a 100 basis point change in yield and assuming that the bond's expected cash flow does not change when the yield changes.
