

A Quality Approach to High-Growth Investing

Ultra is a quality-oriented, large-cap growth fund that seeks to deliver strong results over time through investments in companies we believe have the opportunity to sustain their above-average growth.

Seeks Long-Term Growth

Good stocks start with good businesses. We identify established companies with room to grow, each vetted carefully for financial strength. We've had the same definition of quality for nearly 15 years; every company that joins the portfolio must show:

- Strength of earnings quality
- Improving fundamentals
- Market strength versus peers
- Attractive price valuation

Results Driven by Stock Selection

Ultra has a team-based approach to investment management. Our team brings expertise from diverse industries, enhancing the depth of research. This approach and diverse team:

- Provide access to unique insights
- Reduce reliance on any single member of the investment team
- Deliver performance driven primarily by the strengths of individual companies rather than broad economic or industry patterns

A Focus on Consistency

We use a consistent investment process across market cycles. Ultra strives to deliver:

- Performance driven primarily by our stock selection capabilities
- Returns consistent with a U.S. large-cap growth investment style. We expect Ultra to have stronger performance when markets favor growth stocks and be competitive when the markets favor other styles.
- Historically attractive risk-adjusted returns relative to peers

Ultra has historically performed well versus its peers

Morningstar Category: Large Growth

Number of funds in Morningstar Category: 1,118 (3 Year), 1,031 (5 Year) and 810 (10 Year)

Source: FactSet, Morningstar. Data as of 12/31/2023.

Past performance is no guarantee of future results.

Average annual total returns for period ended 12/31/2023 (%)	1 Year	3 Year	5 Year	10 Year	Inception	Expense Ratio Gross/Net %
Ultra	43.31	6.04	19.18	14.54	12.34	0.95/0.91

Inception date is 11/2/1981. Expense ratio is as of the fund's current prospectus.

Extraordinary performance is attributable in part to unusually favorable market conditions and may not be repeated or consistently achieved in the future.

The gross expense ratio is the fund's total annual operating costs, expressed as a percentage of the fund's average net assets for a given time period. It is gross of any fee waivers or expense reimbursement. The net expense ratio is the expense ratio after the application of any waivers or reimbursement. This is the actual ratio that investors paid during the fund's most recent fiscal year. Please see the prospectus for more information.

The advisor has agreed to waive a portion of the fund's management fee such that the management fee does not exceed 0.911% for Investor, A, C and R Classes, 0.711% for I and R5 Classes, and 0.561% for Y and R6 Classes. The advisor expects this waiver arrangement to continue until July 31, 2024, and cannot terminate it prior to such date without the approval of the Board of Directors.

Calendar year returns (%)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023
Ultra	9.91	6.16	4.38	31.90	0.66	34.60	49.78	23.21	-32.46	43.31

Data presented reflect past performance of Investor Class shares. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. To obtain performance data current to the most recent month end, please visit www.americancentury.com/performance. Investment return and fund share value will fluctuate, and redemption value may be more or less than original cost. Data assume reinvestment of dividends and capital gains. For information about other share classes available, please consult the prospectus. There is no guarantee the fund will meet its investment objective.

The steady hand of experience

Ultra is managed by a veteran team. Pictured left to right (industry start date in parentheses) are Portfolio Managers Keith Lee, CFA (1996), Michael Li, Ph.D. (2002) and Jeff Bourke, CFA (2003). They are supported by a team of dedicated analysts.

Growth of a hypothetical \$10,000 investment since inception

You should consider the fund's investment objectives, risks, and charges and expenses carefully before you invest. The fund's prospectus or summary prospectus, which can be obtained at americancentury.com, contains this and other information about the fund, and should be read carefully before investing.

The Russell 1000® Index measures the performance of the 1,000 largest companies in the Russell 3000® Index (the 3,000 largest publicly traded U.S. companies based on total market capitalization). The Russell 1000® Growth Index measures the performance of those Russell 1000® companies with higher price-to-book ratios and higher forecasted growth values. Created by Frank Russell Company, indices are not investment products available for purchase.

Mutual fund investing involves market risk. Investment return and fund share value will fluctuate and it is possible to lose money by investing. Equity investments are subject to market fluctuations.

Investments in growth stocks may involve special risks and their prices may fluctuate more dramatically than the overall stock market. If at any time the market is not favoring the fund's growth investment style, the fund's gains may not be as big as, or its losses may be bigger than, those of other equity funds using different investment styles.
