

Elaine Bourke

Vice President

Head of Fixed Income and Multi-Asset Client Portfolio Management

Elaine Bourke is a Vice President and Head of Fixed Income and Multi-Asset Client Portfolio Management for American Century Investments, a premier investment manager headquartered in Kansas City, Missouri. She is based in the company's New York office.

As Head of Fixed Income and Multi-Asset Client Portfolio Management, Elaine is responsible for managing a team of client portfolio managers who represent portfolio management in communicating investment strategies and results to the firm's clients and investors. Previously, she was a Senior Client Portfolio Manager representing the Multi-Asset Strategies discipline for the firm. Prior to joining American Century in 2017, Elaine was a Portfolio Specialist for Credit Suisse Asset Management's Quantitative Investment Strategies group, focused primarily on the development of the firm's alternatives platform. Elaine started her financial services career with Morgan Stanley Investment Management as an Associate covering alternative investment strategies.

Elaine holds a bachelor's degree in Management/Marketing from Canisius University in New York and a master's degree in Business Administration from Columbia University.
