

One Choice[®] Target Date Portfolios

Total Target-Date Assets \$26.0B

Assets include all vintages of target date products managed by the firm.

Distinguishing Characteristics

The One Choice Target Date Portfolio's target date is the approximate year when investors plan to retire or start withdrawing their money. The principal value of the fund is not guaranteed at any time, including at the target date. Each One Choice Target Date Portfolio is a professionally managed asset allocation fund, designed to be a comprehensive investment solution. The portfolios all seek the highest total return, consistent with their asset mix. Over time the asset mix and weightings are adjusted to be more conservative. In general, as the target year approaches, the portfolio's allocation becomes more conservative by decreasing the allocation to stocks and increasing the allocation to bonds and short-term investments.

Data presented reflects past performance. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. To obtain performance data current to the most recent month end, please visit www.americancentury.com/performance. Investment return and share value will fluctuate, and redemption value may be more or less than original cost. Data assumes reinvestment of dividends and capital gains.

You should consider the fund's investment objectives, risks, and charges and expenses carefully before you invest. The fund's prospectus or summary prospectus, which can be obtained at americancentury.com, contains this and other information about the fund and should be read carefully before investing.

The A Class shares are generally only available through broker-dealers and other financial intermediaries. These shares carry an initial sales charge of up to 5.75% and an ongoing distribution and service (12b-1) fee of 0.25%, which the fund and its related companies may pay the intermediary for the sale of fund shares and related services. The sales charge decreases with the size of the purchase, and may be reduced or eliminated in certain situations. Investors may open accounts with \$250 through a financial intermediaries, but additional minimums may also apply. Expense ratio is as of the fund's current prospectus. Returns or yields for any portfolio containing the American Century U.S. Government Money Market and/or High-Yield funds would have been lower if a portion of the management fee had not been waived beginning August 1, 2008.

The gross expense ratio is the fund's total annual operating costs, expressed as a percentage of the fund's average net assets for a given time period. It is gross of any fee waivers or expense reimbursement. The net expense ratio is the expense ratio after the application of any waivers or reimbursement. This is the actual ratio that investors paid during the fund's most recent fiscal year. Please see the prospectus for more information.

Returns or yields for the fund would be lower if a portion of the management fee had not been waived. The advisor expects this waiver to continue until November 30, 2025 and cannot terminate it prior to such date without the approval of the Board of Directors. Review the prospectus report for the most current information.

A Note About Risk: The value and/or returns of a portfolio will fluctuate with market and economic conditions. The performance of the portfolios is dependent on the performance of their underlying American Century Investments funds and will assume the risks associated with these funds. The risks will vary according to each portfolio's asset allocation, and a fund with a later target date is expected to be more volatile than one with an earlier target date. International investing involves special risks such as political instability and currency fluctuations. Investing in fixed income securities entails interest rate, credit and price risks. Investing in fixed income securities entails interest rate, credit and price risks. When interest rates rise, bond prices generally fall and increase when interest rates fall. Historically, small-cap stocks have been more volatile than the stocks of larger, more established companies. Smaller companies may have limited resources, product lines and markets, and their securities may trade less frequently and in more limited volumes than the securities of larger companies. The information is not intended as a personalized recommendation or fiduciary advice and should not be relied upon for investment, accounting, legal or tax advice. There is no guarantee that the investment objectives will be met. Dividends and yields represent past performance and there is no guarantee that they will continue to be paid. Diversification does not ensure against a loss.

DUE TO MARKET VOLATILITY, CURRENT PERFORMANCE MAY BE DIFFERENT THAN THE FIGURES SHOWN.
