

U.S. Small Cap Dividend SMA

Investment Strategy

Seeks to invest in small-cap, income-producing companies temporarily selling at a discount.

Key Differentiators

- Focus on higher-quality yield
- Dividend growth potential
- Pure small-cap exposure

Portfolio Management Team

Name	Start Date	
	Industry	Company
Jeff John, CFA	1991	2008
Ryan Cope, CFA	2009	2009

On 9/30/2022, the name was changed from U.S. Small Cap Income SMA to U.S. Small Cap Dividend SMA.

Performance (%)

	Qtr	1 Yr	3 Yr	5 Yr	10 Yr	Since Inception	Inception Date
U.S. Small Cap Dividend Equity SMA (Gross)	11.87	-9.84	6.17	7.81	-	7.82	10/1/17
U.S. Small Cap Dividend Equity SMA (Net)	11.04	-12.46	3.06	4.64	-	4.65	-
Russell 2000 Value Index	8.42	-14.48	4.70	4.12	-	4.32	-

Calendar Year Returns (%)

	2018	2019	2020	2021	2022
U.S. Small Cap Dividend Equity SMA (Gross)	-10.69	36.26	1.10	31.30	-9.84
U.S. Small Cap Dividend Equity SMA (Net)	-13.36	32.29	-1.90	27.48	-12.46

Data presented reflects past performance. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance shown. Investment return and share value will fluctuate, and redemption value may be more or less than original cost. Data assumes reinvestment of dividends and capital gains. Returns for periods less than one year are not annualized.

DUE TO MARKET VOLATILITY, CURRENT PERFORMANCE MAY BE DIFFERENT THAN THE FIGURES SHOWN.

U.S. Small Cap Dividend SMA net of fee shown is equal to the highest anticipated wrap fee charged by a program sponsor (3.00% annually which is inclusive of up to a maximum investment advisory fee of 0.95%). This total wrap fee includes all charges for trading costs, portfolio management, custody and other administrative fees. Actual fees may vary depending on, among other things, the applicable fee schedule and portfolio size.

Prior to 10/1/2019, the composite's gross performance is that of the Firm's U.S. Small Cap Income Equity composite. Net performance prior to 10/1/2019 was derived by taking the gross return for each account within the U.S. Small Cap Income Equity composite and applying the 3% wrap fee.

Investment Philosophy

- We believe investing in high-quality businesses selling at a discount to fair value will generate superior risk-adjusted returns over time.
- We seek to invest in sustainable, income-producing securities with an emphasis on those businesses that have the ability to increase dividends over time.

Note: The above is a sample illustration showing companies' potential price relative to fair value over time.

Investment Process

STEP 1

Investment Universe

Market Cap: \$500 million to \$10 billion, Liquidity: ADV > \$1 million
Security Type: Common or Non-Common, Income Component

Idea Generation

- Watch list of stocks established
- Due diligence performed on potential investments
- Companies screened using quantitative quality and valuation tools

STEP 2

Fundamental Research

- Full analysis performed on fundamentals, management, business quality and competitive position
- Dividend stress tested
- Total quality score assigned based on propriety checklist
- Buy or pass decision reviewed by team

STEP 3

Portfolio Construction

- Bottom-up research drives security selection
- Position sizing determined based on dynamic criteria
- Team follows a disciplined sell process

Portfolio Characteristics

	Portfolio	Index

-4.86	Real Estate	5.81	10.67
-7.36	Health Care	3.07	10.43

A Note About Risk

The value and/or returns of a portfolio will fluctuate with market and economic conditions. Different investment styles tend to shift in and out of favor depending upon market and economic conditions, as well as investor sentiment. A portfolio may outperform or underperform other portfolios that employ a different investment style, and the stocks selected by the portfolio manager may not increase in value as predicted. Because this portfolio may, at times, concentrate its investments in a specific area, during such times it may be subject to greater risks and market fluctuations than when the portfolio represents a broader range of securities. Historically, small- and/or mid-cap stocks have been more volatile than the stocks of larger, more established companies. Smaller companies may have limited resources, product lines and markets, and their securities may trade less frequently and in more limited volumes than those of larger companies. There is no guarantee that the investment objectives will be met. Dividends and yields represent past performance and there is no guarantee that they will continue to be paid. The information is not intended as a personalized recommendation or fiduciary advice and should not be relied upon for investment, accounting, legal or tax advice.

Separately Managed Accounts (SMAs) are investment services provided by American Century Investment Management, Inc. (ACIM) a federally registered investment advisor. SMAs are not available for purchase directly through ACIM. Client portfolios are managed based on investment instructions or advice provided by the client’s advisor or program sponsor. Management and performance of individual accounts may differ from those of the model portfolio as a result of advice or instruction by the client’s advisor, account size, client-imposed restrictions, different implementation practices, the timing of client investments, market conditions, contributions, withdrawals and other factors.

The Russell 2000® Index measures the performance of the small-cap segment of the U.S. equity universe. The Russell 2000® Value Index measures the performance of those Russell 2000® companies (the 2,000 smallest of the 3,000 largest publicly traded U.S. companies, based on total market capitalization) with lower price-to-book ratios and lower forecasted growth values. Created by Frank Russell Company, it is not an investment product available for purchase.

Key Terms: Weighted Average Market Capitalization: The average of the weighted capitalizations of a portfolio’s holdings. **Price/Earnings Ratio (P/E):** The price of stock divided by its annual earnings per share. **Price/Book Ratio (P/B):** The ratio of a stock’s price to its book value per share. **Price/Cash Flow Ratio:** The ratio of a stock’s price to its cash flow per share. **Standard Deviation:** Defines how widely returns varied from an average over a given period of time. A higher standard deviation means a more volatile portfolio. For example, a portfolio with a standard deviation of 6 and an average annual return of 10% saw annualized monthly returns fall within 6 percentage points of that average (or between 4% and 16%) two-thirds of the time. **Dispersion:** A measure of the amount of uncertainty and risk associated with a portfolio.
